Stimulate learning with Opportunity.

Lebanon Borough School is **learner-centered with strong emphasis placed on individualized and small group instruction.** This setting presents opportunity to address the skills students need to think independently and critically.

*In technology, students are expanding their capacity to use computer operations and applications, **applying information-literacy** skills efficiently, and learning how to select the appropriate tools and resources to accomplish a variety of tasks.*

Lebanon Borough School District continues its commitment to professional development opportunities to address curricular matters and character education programs with full and half day in-service workshops scheduled throughout the school year.

Faculty members are also offered opportunities for out of district workshops and seminars. The excellent support from our P.T.A. provides rewarding educational experiences for our students, including author visits, book fairs, student and faculty lunches, student crafts activities, our field day program, after school family programs, mini-grants to staff, and assembly programs.

Lebanon Borough School, with an enrollment of approximately ninety students, has accomplished outstanding success. The small school setting develops the whole child in an atmosphere that encourages a sense of pride, ownership, and involvement on the part of students, parents, teachers, administrators, and community residents.
